To Whom It May Concern,

With this letter our company "Kawasaki Heavy Industries" would like to share with you our experience working with Kervan Logistics (I.E. Ýükli Kerwen and I.E. Bagtyýar ŞADYÝEW) and Mr. Bahtiyar Shadyyev.

We encountered Mr. Bahtiyar Shadyyev and his team when our company was part of a consortium that built the first of its kind Gas to Gasoline processing plant in Turkmenistan They helped us by consulting on customs clearance issues, controlling loading/unloading of oversize and dangerous cargo operations, obtaining necessary permits for such cargo.

Kervan Logistics has also been a big help in metrological services and completed state attestation of Production and Instrumentation laboratories of the plant and even organized trips to Germany, Russia and Turkey for local certification inspectors to conduct calibration of metering devices.

Mr. Shadyyev was often present in our meetings with the Client and always helped in suggesting the best solution for any arising issues.

We recommend Kervan Logistics` services to its future clients and ensure their high-quality and efficient fulfillment of any obligations.

Sincerely yours,

Yasuhisa Fukuda
GTG Plant Project Manager
